

## 4 Out of 5 Patients Prefer Utaire<sup>®</sup> AKP Over Metal<sup>1</sup>

### Don't settle for metal.

Prescribe Utaire<sup>®</sup> AKP, an innovative high-performance polymer purposefully engineered with the desired attributes of an RPD in mind — comfort, care and convenience.

# Clinically Proven. Patient Preferred.

A recent study demonstrated a statistically significant\* improvement in patient oral health-related quality of life when wearing an **Ultaire® AKP** partial denture compared to metal.<sup>1</sup>

## Choose **More Comfort**

Lightweight RPD with no metallic taste and no metal hooks makes it easier for patients to eat, speak and smile.

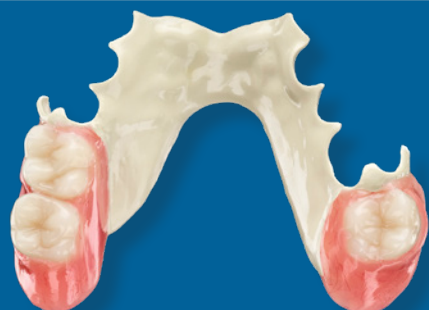

## Choose **Better Care**

Biocompatible, tooth-supported frame with superior biofilm resistance preserves abutment teeth and gum health.<sup>2</sup>

## Choose **Extra Convenience**

Digitally accurate fit with durable clasps that won't loosen over time reduces the need for fittings and adjustments.<sup>3</sup>

**Prescribe Ultaire® AKP —  
the RPD your patients prefer<sup>1</sup>**
